I. Basis of the report

1. With regard to the elements of the international application:*

- ☒ the international application as originally filed
- ☐ the description:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the claims:
 pages _____, as originally filed
 pages _____, as amended (together with any statement under Article 19
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the drawings:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____
- ☐ the sequence listing part of the description:
 pages _____, as originally filed
 pages _____, filed with the demand
 pages _____, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

- These elements were available or furnished to this Authority in the following language _____ which is:
- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages _____
- ☐ the claims, Nos. _____
- ☐ the drawings, sheets/fig _____

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

2. Citations and explanations

Claims 1-8

Document 1 (JP 9-193332 A (Dainippon Printing Co., Ltd.), 29 July 1997) discloses an optical film that is configured from a layer of an ultraviolet-curing resin, which has microscopic projections and recesses formed on the surface thereof, on the surface of a transparent substrate, and discloses a configuration wherein the aforementioned surface that has microscopic projections and recesses is similar to the inventions that are set forth in claims 1-8 with regards to the average interval (S_m) between the protrusions and recesses, the average roughness (R_a) of the centerline, the degree of glossiness and the degree of transmission definition.

Document 2 (JP 2002-107512 A (Nitto Denko Corp.), 10 April 2002) discloses a light diffusion sheet that is configured from an optical diffusion layer of a resin coating layer, which has a form that comprises microscopic projections and recesses, on the surface of a transparent substrate, and discloses a configuration wherein the aforementioned form that comprises microscopic projections and recesses is similar to the inventions that are set forth in claims 1-8 with regards to the haze value and the level of image definition.

Document 1 and document 2 both relate to diffusive
